DOCKETED

JUL -2 2009

DOCKETED BY	
-------------	--

My name is Johnny Dodson, Parcel 43A. I am a full time resident of Hillcrest Bay. I came to Hillcrest early on and installed a Mobil unit in 1974. Retired in 1998 and became a full time resident of AZ that same year.

If what the Documentation states are authentic, perhaps the Nat'l Wildlife Refuge and BLM should be the one to foot the bill to take care of the bird problem. I live here and do not have a problem.

If APS facilities are old and falling down it is the responsibility of them to repair at no cost to the home owner.

In the case of the new List of new votes 127 yes and 86 no, it is incorrect and does not list all the new owners and remove the old.

In response to assistance the form I was sent; I was to send my tax information for 2006/2007 to a not bonded out of state CPA with out a telephone number on it or personal information about the CPA. In today's world I did not feel safe sending that kind of information to an unknown.

With falling prices on home, Stock Market and Yes even Soc. Sec. will not be giving a cost of living increase to me next year, my income was better in 2006/2007 than it is in 2008/2009.

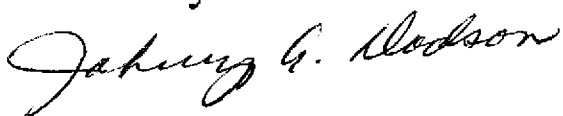

The question of the contractor is still there. I have never received an estimate from any contractor or company stating what work is to be done; what materials are to be used ; what time frame the work is to be completed.; how and when it is to be paid for.. I have talked to contractors and because I can not give them a date to start the job, they are not willing to give me a bid that is good for than 2 months. The only dollar amount came on HOI stationary unsigned and no names.

In the case of the 40 new poles, I asked D.L. Wilson about it at the HOA last annual meeting. Mr. Wilson has said that was taken out of context, misconstrued and not factual.

If in fact there are issues with lines that are to close or dangerous to people it should be between the utility (APS) and that homeowner. The burden should not be passed on to the other homeowners.

I therefore ask the Commission to agree with Judge Harping and deny the project.

Sincerely

A handwritten signature in cursive script, reading "Johnny A. Dodson".
